

LED Light Source LED-30W

FEATURES

The LED-30W GP Fiber Optics LED light source is an advanced controller for fiber optic. Using newest technology we provide the best solution for lighting control. Industrial connectors provide quick installation of the entire lighting system.

TECHNICAL INFORMATIONS

-LED	22W Led array
-Luminous Flux and Color Temperature	1820lm :3000K 2530lm : 400K other temperatures are available
-Power supply	Constant Current
-Cooling	Fan
-Common end for fibers	30mm, for Glass and PMMA Fiber
-No. of LEDs	7 pcs.
-Nominal Current	1050mA
-Operating Temperature	-10 +45°C
-Protection grade	IP20
-Case	Aluminium
-Finishing	nature
-Dimensions	124x72x57mm
-Weight	0,5kg
-Standards	CE and RoHS conform
