

LED Lightsource LED-F012W

FEATURES

The new 12W GP Fiber Optics LED light source is a high lumen one and can replace old halogen light sources.

The 12W LED Lightsource requiring no fan. The small housing still allows a high lumen output.

Technical Information

-LED Light source	12 W Led Array
-Color temperature 1	3000K
-Color temperature & Lumen	3000K-1200lm
-Power supply	12V DC
-Cooling	Passive cooling, no fan
-Common End	20mm, for Glass or PMMA Fiber
-Operation temperature	-10 +45°C
-Protection grade	IP20
-Case	Metal
-Finishing	Natural
-Dimensions	Dia. 60mm x 150mm
-weight	0,5kg
-Standards	CE
