

LED Lightsource LED-18W

FEATURES

The LED-18W GP Fiber Optics LED Lightsource is an advanced controller for fiber optic. Using newest technology we provide the best solution for lighting control. Industrial connectors provide quick installation of the entire lighting system.

TECHNICAL INFORMATIONS

-LED	15,5W Led array
-Luminous Flux	1260lm (3000K)
-Color Temperature	3000K (other temperatures are available)
-Power	Constant Current
-Cooling	Fan
-Connector	30mm, for Glass and PMMA Fiber
-No. of LEDs	7 pcs.
-Nominal Current	700mA
-Operating Temperature	-10 +45°C
-Protection	IP20
-Housing	Aluminium
-Design	grey color
-Dimension	124x72x57mm
-Weight	0,5kg
-Standards	CE and RoHS conform
