

## LED Lightsource LED-30W

### FEATURES

The LED-30W GP Fiber Optics LED Lightsource is an advanced controller for fiber optic. Using newest technology we provide the best solution for lighting control. Industrial connectors provide quick installation of the entire lighting system.

### TECHNICAL INFORMATIONS

<b>-LED</b>	22W Led array
<b>-Luminous Flux</b>	1820lm (3000K)
<b>-Color Temperature</b>	3000K (other temperatures are available)
<b>-Power</b>	Constant Current
<b>-Cooling</b>	Fan
<b>-Connector</b>	30mm, for Glass and PMMA Fiber
<b>-No. of LEDs</b>	7 pcs.
<b>-Nominal Current</b>	1050mA
<b>-Operating Temperature</b>	-10 +45°C
<b>-Protection</b>	IP20
<b>-Housing</b>	Aluminium
<b>-Design</b>	grey color
<b>-Dimension</b>	124x72x57mm
<b>-Weight</b>	0,5kg
<b>-Standards</b>	CE and RoHS conform
